Wakol Linoleum Adhesives – provide security

The right adhesive for every requirement

Whether it is string formation or with distinctive suction adhesion – Wakol has the right solution for every requirement, irrespective of the type of linoleum being installed. With regard to economy, there is always the right product for each individual demand.

Fast and safe

Wakol Linoleum Adhesives have a high wetting capacity matched to linoleum and a fast strength build-up. The fast strength build-up keeps the flooring where it belongs, fast and safe. The highest emissions requirements according to EMICODE EC1 PLUS are also satisfied. The adhesives have very low emissions.

Easy installation of linoleum

The adhesives are extremely easy to spread and have excellent adhesive ridges. The adhesive allows easy and quick application also in large areas.

WAKOL D 3314 Linoleum Adhesive

- The specialist for challenging linoleum
