# Safety through Wakol Parquet Adhesives

## The complete programme for the parquet layer

For all laying cases, and state of the art in adhesive technology: parquet adhesives on MS polymer, polyurethane, dispersion and synthetic resin basis. This unsurpassed versatility provides the truly optimal solution for each application case. All products meet the following criterias:

EC1 PLUS R (except for PU 215 and K 410)

CONNECTED SYSTEMS (except for D 1640 and K 410)

DIBt certification (except for K 410)

### WAKOL D 1640 Parquet Adhesive

- The safe dispersion-based adhesive for mosaic, strip and ready-to-lay parquet as well as wood block RE/WE on absorbent subfloors
- Almost no swelling
- Extremely fast solidification
- Very low in emissions EMICODE EC1 PLUS

### WAKOL MS 290 Parquet Adhesive

- The first shear-resistant MS polymer adhesive
- For all types of parquet
- Adhesive residue removable without a trace
- No interactions with floor finishes
- Fast solidification

### WAKOL MS 260 Parquet Adhesive, firm-elastic

- The all-rounder with the safety guarantee
- Firm-elastic for the loveliest parquet surfaces
- In connection with WAKOL Speciality Trowel 5 suitable as an integrated moisture barrier exclusively for types of parquet with tongue and groove joint
- Adhesive residue removable without a trace

### WAKOL MS 230 Parquet Adhesive, elastic

- The economical special adhesive for critical subfloors
- For on-edge lamella parquet, strip parquet, mosaic parquet and multi-layered parquet
- In connection with WAKOL Speciality Trowel 5 suitable as an integrated moisture barrier exclusively for types of parquet with tongue and groove joint

### WAKOL MS 262 Parquet Adhesive, firm-elastic

- The MS polymer adhesive in the sausage
- Optimal footfall sound insulation in the system with WAKOL TS 160 Footfall Soundproofing Mat as well as WAKOL TS 170 Footfall Soundproofing Sheet
- For multi-layer parquet with matchboard parquet type
- Simple, easy use

### WAKOL PU 385 Parquet Adhesive

- The shear-resistant 1-component polyurethane adhesive
- Especially suitable for large format solid wood planks
- Economical consumption

### WAKOL PU 225 Parquet Adhesive

- The fast 2-component polyurethane adhesive for new building and renovation
- Almost no swelling
- Extremely fast solidification

### WAKOL PU 215 Parquet Adhesive

- The economic 2-component polyurethane adhesive
- Extremely easy to apply
- Very good ridge formation
- Extremely long open time

### WAKOL K 410 Parquet Adhesive with VOC Control

- The low-solvent and solvent controlled adhesive
- Unbeatable long open time
- Exceptionally economical
- Fast solidification
- By passing hollow spots
