

WAKOL RT 5960 Cleaning Cloth

Technical Information

Area of application

Impregnated, very absorbent cloths for cleaning hands and tools, especially for cleaning off non-hardened PU adhesives, oils, greases and coatings.

Special properties

- solvent-free as defined by TRGS 610

Technical data

| | |
|----------------------|--|
| Material: | Fibre-reinforced, specially impregnated cloths |
| Delivery: | 150 pieces per bin, with resealable opening |
| Storage time: | at least 24 months at room temperature |
| Storage temperature: | store in a cool location not sensitive to frost |

Usage

Cloths can be individually taken (torn off) from the container. After using, do not leave on sealed or oiled surfaces. Reactive adhesives and coatings can be removed only when fresh. The cloths additionally contain skin moisturisers.

Important (Notes)

We guarantee the uniform high quality of our products. All data is based on tests and many years of practical experience and refers to standardised conditions. The variety of materials used and the different construction site conditions, which lie beyond our control, preclude any claims based on this data. We therefore recommend making sufficient trials. Accompanying flooring manufacturer's instructions and the current national standards must be observed. We gladly provide technical advice.

The product data sheets can be found in their latest version at www.wakol.com.

This Technical Information of 06.10.2023 supersedes all previous versions.
